Dear Anti-Money Laundering Professional:

The ACAMS organization is proud to acknowledge that Safe Banking Systems ("SIBS") of Melville, NY is its first Charter Affiliate Member. SIBS, a provider of advanced AML software solutions to the banking and financial markets, had the "early vision" to see the potential benefits in joining ACAMS and having its staff become certified Anti Money Laundering Specialists. ACAMS welcomes SBS and other solution providers to join its ranks, have access to its membership and participate in all ACAMS events.

The Association of Certified Anti-Money Laundering Specialists, Inc., is a membership organization for the career development and professional networking for individuals and is a resource for financial institutions and related businesses to identify and locate specialists in the practice of money laundering prevention

Sincerely

Saskia Rietbroek
Executive Director
